EasyWalk

About this map

This map has been produced by the City of Ballarat and the local community, using the Map My Town toolkit developed by Plan B, the La Trobe University Student Planners' Association with funding support from Victoria Walks. The local community have tested all walking times for you!

The Map My Town toolkit provides a step-by-step process for building walking, cycling or public transport maps for your community. Watch the video and download the toolkit at www.victoriawalks.org.au/mapmytown

Community College When walking from the start point it is roughly 10 minutes walk to the blue line and anothe 10 minutes to the grey line

27 Rubicon Street Shopping Precinct

28 Salvation Army Store

29 Sebastopol Post Office

FROM SEBAS1

Redan Delacombe 21 18 18 Map data © www.openstreetmap.org Walking is **Easy** There are many reasons to start walking - to relax, for exercise, to get somewhere, because the dog needs it, because it's cheap (free!) or just to get out of the house. Walking is a great way to travel and it's something you

can start doing right now.

Find a comfy pair of shoes and you're ready to go!

A variety of factors such as terrain, path layout and other barriers can influence how far you can walk in a given time period. The local community members have tested this for you. This map shows how far you can expect to walk, from central Sebastopol in 10 and 20 minutes.
